DIGI Workshop

R series: Intro to R

Instructor: Joey Stanley, PhD Candidate Linguistics

This series of workshops will introduce the concepts and power behind the programming language R. These sessions are open to all and are intended for beginners. No experience necessary. Each session will include a different topic. Attend an intro session then choose the others that best fit your research agenda.

Intro to R – Learn the basics
ggplot2 – Make compelling visualizations
Tidyverse – Clean and organize your data

September 13	3:30-4:30
October 12	2-3:00
November 10	3-4:00

Sept. 13 3:30-4:30

DigiLab – 300 Main Library
